

YOUR LOCAL ELECTRICAL AND SOLAR CONTRACTORS

GO SOLAR

Solar is the world's fastest growing energy technology. It has seen rapid growth as well as promising advancements in innovation and price.

We offer complete solutions for commercial and residential Solar PV installations. Our team of certified electricians work in partnership with Cowichan Valley based Coast Roofing Ltd. to ensure your solar array is installed safely and made to last. Connect to BC Hydro's grid using the Net Metering Buyback Program or install a backup battery to go off the grid. Surepoint Group can help you through all your solar and electrical needs.

Our team of industry experts will provide you with:

- Free Consultation and Design
- An accurate monthly breakdown of how much energy you will produce
- Engineering services and BC Hydro applications for Grid-Tie systems
- Application assistance for the Canadian Greener Homes Grant & Loan

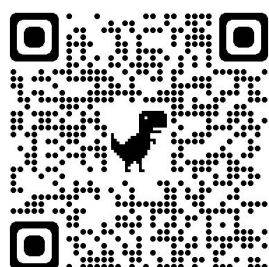

CANADA GREENER HOMES GRANT & LOAN

The Greener Homes Grant & Loan are available to Canadian Residents. Each home has the potential to receive \$5,600 for the grant and anywhere from \$5,000 - \$40,000 for a 10 year interest free loan.

With buildings, including homes like yours accounting for 18 % of Canada's greenhouse gas emissions, energy-efficient retrofits are an important component of Canada's commitment to reaching net-zero emissions by 2050.

Schedule a meeting with one of our industry experts to assist you with the grant and loan application today. infovi@surepoint.ca
